<b>Start &amp; Finish</b>	April 2003 – February 2004
<b>Consultant</b>	None
<b>Main Contractor</b>	Exterior/Interior
<b>Project Description</b>	<p>Overlooking the Thames, and located next to Battersea Bridge, the apartments designed for Hutchison Whampoa by Foster and Partners, offer first class accommodation in a highly desirable location.</p> <p>As well as installing a mini-structured cabling system within each apartment, providing for multiple telephone extensions and a self contained computer network, Able designed and installed a complete building wide RF distribution system. The signal from a single set of aerials and satellite dish is distributed across more than 600 outlets distributed through the apartments. Each outlet provides high quality signals for TV, FM, DABS and Sky Digital.</p>
