Dear Clive,

Re: Cabling Contract – 3rd Floor 25 Cannon Street, London EC4M 5TA

We would like to take this opportunity to thank Able Data for the excellent standard of work and service provided throughout this project. I would also like to thank Darren Sullivan for the way he managed the project and for sorting out any problems that occurred along the way.

We have now worked with Able on several projects and all projects have been completed to the same high standard. Able's flexibility combined with the high quality of work means that we would always recommend Able Data as our preferred cabling provider.

Thank you once again for your hard work.

Yours sincerely

Dexter Baird
